

## Spotlight on Benefits

Everyone has heard the old adage “safety in numbers”; well the same applies to your group benefits program. Your MCAS group benefits program through Saskatchewan Blue Cross groups you together with other participating member companies for great stability and rates.

This year we had a fantastic renewal with an average of no change to the rates! The plan provides your employees with excellent Life and Disability coverage, along with a competitive Health and Dental plan. You can submit claims online or on the Blue Cross smartphone app.

With optional benefits like Critical Illness and Health Spending Accounts, you have a real employee attraction and retention tool right at your fingertips.
